SUMMARY

An aspiring Data Scientist enthusiast motivated to solve real-world problems and learn new ideas using data. Interested in AI/ML and Data Engineering. I want to expand my technical knowledge in data and AI, across a range of fields, building on my foundation in statistical analysis, data modelling, Python and R. I am a versatile person with a passion for learning new technologies, and I'm always looking to improve myself and build practical solutions with data.

EDUCATION

Digital University Kerala <i>Master of Science in Computer Science (Data Analytics)</i>	2025 – Present
M.G. University <i>Bachelor's Degree in Statistics</i>	2022 – 2025

EXPERIENCE

Remarkskill Education <i>Internship Trainee</i>	Jun. 2025 – Jul. 2025
- Gained practical exposure to data science tools and workflows during the internship. - Strengthened analytical thinking and problem-solving skills through practical learning activities.	

PROJECTS

AI-Powered Job Recommendation Platform <i>Python, NLP, Machine Learning, Multi-Agent AI</i>	In Progress
- Developing a multi-agent AI platform to help users discover genuine job opportunities and receive personalized job recommendations. - Exploring resume-based skill matching and job information retrieval to support relevant recommendations.	
Research on Metro Passenger Prediction <i>Python, Machine Learning, Time Series Analysis</i>	In Progress
- Conducting research to evaluate multiple predictive models for accurate metro passenger forecasting. - Exploring time series modelling and comparative model evaluation for passenger prediction.	
A Study on Sleep Health and Human Wellness <i>R, Jamovi, Statistical Analysis</i>	Apr. 2025
Studied the relationship between sleep and human wellness using statistical analysis.	
Titanic Survival Data Analysis <i>Python, Data Analysis, Data Visualization</i>	Jul. 2025
Analyzed the Titanic dataset to identify patterns associated with passenger survival.	

RESEARCH AND ACHIEVEMENTS

Research Paper Presentation <i>NCME 2026</i>
Presented the paper “A Multi-Agent Framework for Authentic Job Information Retrieval and Recommendation” at NCME 2026 and the National Seminar on Emerging Domains in Robotics and AI.
IBM SkillsBuild Data Analytics Certificate
Completed a data analytics certification through IBM SkillsBuild.
Google Cloud Data Analytics Certificate
It builds on foundational data analytics skills including basic SQL, analysis, visualization, and business intelligence.

TECHNICAL SKILLS (FOUNDATIONAL KNOWLEDGE IN:)

Programming Languages: Python, R, C, C++, SQL
Data Analytics: Statistical Analysis, Data Modelling, Data Visualization, Regression Analysis, Time Series Analysis
AI and Machine Learning: Machine Learning, Deep Learning, Natural Language Processing, AI Agents
Databases and Tools: PostgreSQL, MS Excel, VS Code, GitHub
Other Tools: MS PowerPoint, Canva, HTML, CSS, Adobe Lightroom Mobile

CERTIFICATIONS

Introduction to R — <i>DataCamp</i>	Introduction to Python — <i>DataCamp</i>
AWS Concepts — <i>DataCamp</i>	SQL (Basic) — <i>HackerRank</i>
Git & GitHub Essentials — <i>IBM</i>	Data Analysis using Microsoft Excel — <i>Coursera</i>
