ABOUT ME

As an aspiring data scientist with a strong passion for transforming raw data into valuable insights, I thrive in environments where innovation meets analytics. While I have a basic understanding of data science, I am eager to deepen my knowledge and expertise. My goal is to become a data scientist, combining my technical skills with strategic vision. I built a solid foundation in statistical analysis and data modelling, which complements my skills in Python and R.

EDUCATION

MASTER'S DEGREE IN COMPUTER SCIENCE (DATA ANALYTICS)

Digital University Kerala

2025 - present

BACHELOR'S DEGREE IN STATISTICS

M.G. University

2022 - 2025

SOFTWARE PROFICIENCY

- Beginner-level knowledge in:
- C, C++
 - R
 - Python
 - M.S. EXCEL
 - PostgreSQL
 - M.S. POWERPOINT & CANVA
 - ADOBE LIGHTROOM MOBILE
 - VS code
 - HTML & CSS

AREA OF INTEREST

- STATISTICAL ANALYSIS
- PROGRAMMING
- ACCOUNTING
- DATA VISUALIZATION
- REGRESSION ANALYSIS
- Time Series Analysis
- Data Analytics
- AI/ML and Deep Learning
- NLP

INTERNSHIP

Remarkskill Education - Internship Trainee

JUN-JUL 2025

This internship enhanced my ability to approach data-driven problems systematically, strengthened my analytical thinking, and provided me with practical exposure to tools and workflows commonly used in the field of data science.

PROJECT

A study on Sleep Health and Human Wellness

APR- 2025

Our objective was to understand the effects of sleep on health and wellness using various statistical tools in R and Jamovi.

Titanic Survival Data Analysis

JUL- 2025

Analyzed the Titanic dataset to identify survival patterns influenced by socioeconomic factors and passenger demographics using statistical methods and data visualization.

CERTIFICATION

Introduction to R

DataCamp

Introduction to Python

DataCamp

AWS Concepts

DataCamp

SQL (Basic)

HackerRank

IBM SkillsBuild Data Analytics Certificate

IBM
